

# João Camba

JUNIOR SOFTWARE ENGINEER

## Profile

My dream is to fulfil the task of changing lives through the technology I help to build. Any team that I have been fortunate to be apart of, has always had one or two indistinguishable qualities that have brought the best of myself and my colleagues: Professionalism and Communication. Creating lasting experiences for the end-user only comes to fruition though the lasting experiences shared with the team that's created them. I plan to build-on my young career with the golden foundations laid by great professionals and communicators.

## Employment History

### Junior Associate Software Engineer, Publicis Sapient, City of London

MARCH 2021 – SEPTEMBER 2022

#### Responsibilities:

- Assisting the development manager with all aspects of software design and coding
- Attending, contributing and presenting updates during company development meetings, daily Stand-Ups with Junior Engineering team.
- Conducting Integration and Unit-Tests.
- Learning the code base (**JavaScript**, **Typescript**, **React**), improving my coding skills.

FEBRUARY 2019 – MARCH 2020

#### Responsibilities:

- Help to provide a sense of protection for attendees and staff
- Maintaining order, including directing foot traffic, helping lost people, or assisting in disturbances.
- Regular reporting, as SERVOCA Security are responsible for reporting any suspicious activity to our supervisor.

## Cover Letter for Xander

As someone who has certainly not had the clearest path into Software Engineering, losing faith in my capabilities to grasp certain ideas or methods, constantly having to dig myself out of periods of low motivation; the blessing that I've been afforded was the people I've had around me during this journey. The teachers during my

apprenticeship at Mutliverse stood as daunting figures, figures that I revered due to their vast knowledge, expertise and ease with communicating complex topics.

They were the same figures that I faithfully leaned on for confidence and advice during difficult times. What I valued was the opportunity to learn, the opportunity to fail, and the opportunity to prove myself in times when it seemed uncomfortable.

Xander's Training Academy, stood out to me as an opportunity to continue on the path of learning. The 9 Week training programme is something I'm excited to be apart of, I have a strong desire to dig deep and embrace the challenge of securing a Client placement, working alongside people who are on the same path as myself, early in their careers, looking to make a difference together.
